Escapes—List of the Missing.

NEW ORLEANS, April 29.

THE imposing front of the St. Charles hotel, with its spacious parlors, mounted by a dome of majestic dimensions and classic architecture in the center of the block are all that is left of the rooms of the most famous hostelry in the United States—within whose walls Jefferson Davis, Judah P. Benjamin and the other leading figures of the Confederacy formed the first plans for the establishment of the new republic before they started for Richmond, where no less than six congressional committees have sat, trying to solve what became known as the Louisiana question after the war, where countless political, railroad, commercial and social meetings of national importance have been held. The fire that raged last night was one of the fiercest this city has ever experienced. Starting in the kitchen, which fronted on a small court in the very heart of the square, the flames ate their way along woodwork with amazing rapidity and owing to the inability of firemen to get at them it at once became manifest that their efforts would prove futile.
